

**DOMINICAN
UNIVERSITY**

**People + Technology
+ Information**

For nearly a century, Dominican University has been a leader in library and information science, archival and cultural heritage resources management, and, in more recent years, data analytics, UX design, information security and more. Our graduate programs, led by renowned faculty, will prepare you for what's next in our rapidly changing industry. We know because we're helping lead that change. It's about more than just advancing your career—it's about empowering the communities and organizations you serve.

Harnessing Information Empowering Communities

Master of Library and Information Science

- 100% online, in-person or hybrid
- Finish in as little as one year, or take up to six
- Choose from a wide range of concentrations, including youth services, web design, and data and knowledge management
