About UBC iSchool

UBC iSchool (Library, Archival and Information Studies) is an internationally ranked, multi-disciplinary school, offering one-of-a-kind graduate programs. The iSchool is a partner in UBC’s Bachelor of Media Studies undergraduate program, and a top-tier member of the international iSchools organization.

The iSchool offers a research intensive study environment with international partnerships and competitive funding, at one of the top 20 public universities in the world. Although at a large university, iSchool students have ready access to their professors, and a large variety of work-based learning opportunities at local, national and international organizations.

First Nations Curriculum Concentration

The First Nations Curriculum Concentration is one of the few specializations in North America that enables students to specialize in Indigenous information practices and systems, including language preservation, digitization, research and governance. The concentration prepares students to work with, and within, Indigenous communities, and in cultural heritage organizations.

Hands-on learning

Students receive a variety of experiential learning opportunities while they work on their degree, preparing them for careers in library, archives, information architecture, research and data management in a variety of organizations and settings.

PROGRAMS

Masters of Library and Information Studies (MLIS)

UBC iSchool is a leader in information studies, ranked first in Canada, and fourth in the world, for graduate education in library and information management. The ALA-accredited MLIS program supports a range of career pathways for students, including data services, information interaction and design, librarianship and cultural heritage.

Masters of Archival Studies (MAS)

The MAS program is a unique stand-alone degree that offers students the opportunity to explore records and archives issues in depth and from a variety of perspectives—from records creation to preservation, from analogue to digital—in the public and private sector. The program coursework supports a variety of career pathways, including traditional approaches to historical archives, records management and digital records forensics. The MAS program is international in scope, and its alumni work at organizations around the globe.

Dual MAS and MLIS (MASLIS)

The dual MASLIS program is an interdisciplinary, high-demand educational experience in which students complete two graduate degrees within an accelerated timeframe. MASLIS students gain rich expertise suited to hybrid library/archives environments and cultural institutions, giving them a competitive edge.

Masters in Children’s Literature (MACL)

UBC iSchool offers the only interdisciplinary Master of Children’s Literature program in the world—and the only Master’s program in children’s literature in Canada. The MACL program is offered in collaboration with UBC’s English Department, the Creative Writing Program, and the Department of Language and Literacy Education. This program has produced multiple award-winning authors, scholars and publishing industry professionals.

PhD

UBC iSchool’s PhD program is a four-year-funded program that combines coursework with focused independent study and research. Students have ready access to faculty members and advisors, and benefit from excellent opportunities at a research-intensive university.

APPLICATION PROCESS

1. Online application form (includes statement of interest)
2. Transcripts from all past post-secondary study (domestic and international student requirements may differ)
3. Three letters of reference
4. English proficiency exam scores (if applicable)
5. Copies of permanent resident card (if applicable)
6. Identify a research supervisor (PhD’s, MACL)
