iConference 2020 – Sustainable Digital Communities

Call for registration

Call for Registration for iConference 2020
Borås, Sweden
March 23-26, 2020
Conference website: https://ischools.org/iConference
Conference practical information: https://ischools.org/Practical-Information
Conference registration site: https://ischools.org/2020-Registration
Conference e-mail: iconf2020@hb.se

The registration for iConference 2020 has opened. iConference 2020 will be the fifteenth annual iConference, and will take place in Borås, Sweden, March 23-26, 2020. iConference 2020 is jointly hosted by the University of Borås, Sweden and Oslo Metropolitan University, Norway.

WHAT The iConference brings together scholars, researchers and professionals addressing critical information issues in contemporary society. The iConference pushes the boundaries of information studies, explores core concepts and ideas, and creates new technological and conceptual configurations – all shaping interdisciplinary discourses. Visit our website for more information, including sample topics and links to past proceedings: https://ischools.org/iConference/

THEME The iConference 2020 will feature papers on all current critical information issues. The theme of the conference will be sustainable digital communities. Participants are invited to discuss sustainability from ethical, social, ecological, economic and technological perspectives. This includes trusting communities, equality, openness, privacy, cultural heritage and access to digital worlds. What are the consequences of the seemingly limitless expansion of production, processing and storage of information?

WHERE The conference takes place in Borås, Sweden. Borås is one of Scandinavia’s key fashion and textile cities. It has deep-rooted historical links to the textile industry, combined with a contemporary artistic and cultural vibe, including a significant street art collection. The conference will be set in the city centre with easy access to hotels, restaurants, shops, the University and public transport.

ISCHOOLS The iConference is presented by the iSchools (https://ischools.org/), a worldwide association of information schools dedicated to advancing the information field and preparing students and scholars to meet the information challenges of the 21st Century. Affiliation with the iSchools is not required – all information scholars, researchers, and professionals are welcome at the iConference.
KEYNOTE SPEAKERS The iConference 2020 organizers are pleased to announce that we have engaged three inspiring keynote speakers who will stimulate and provoke thinking and discussions at the conference:
* Aslak Siré Myhre, Director General of the National Library of Norway
* Dr Lina Dencik, Cardiff University, Director of the Data Justice Lab
* Professor Jussi Karlgren, Spotify

PUBLISHING Springer’s Lecture Notes in Computer Science Series will publish full and short research papers in the conference proceedings, which will be indexed by major services such as Web of Science and Scopus. Posters and Visions papers will be deposited in the open-access IDEALS repository. Other submissions will be archived on the conference website.
